The services we offer include:

Electrical & Lighting Services

Design, installation and certification of electrical projects in many disciplines including: multi-storey commercial fit-outs, data centres, process control, instrumentation, tenancy refurbishments, intelligent lighting, industrial installations, generator and uninterruptible power supplies (UPS), switchboard and metering installations.

Communications

Design, installation and certification of structured cabling, optical fibre, closed circuit television networks, local and wide area networks, computer rooms and data centres.

Energy Management

Better use of energy in small and large premises can save money, improve working conditions and bring environmental benefits. Energy management can be scaled to each location and implemented in stages.

Maintenance

Services encompass general, corrective & preventive maintenance activities to ensure the efficient operation of buildings & infrastructure. It includes repair and maintenance, technical services and a range of support services across all states of Australia, delivered through our directly employed workforce and a national 24 hour service team.

Intelligent Monitoring & Control

Monitoring, management and reporting of essential business equipment and control systems. Ensuring energy star rating compliance by monitoring use of utilities such as electricity, gas and water as part of ongoing building performance analysis.

The services we offer include:

Security & Video Surveillance

Monitoring, management and reporting of essential business equipment and control systems. Ensuring energy star rating compliance by monitoring use of utilities such as electricity, gas and water as part of ongoing building performance analysis.

Essential Services

Testing and certification of electrical equipment and emergency systems to assist clients in meeting their legal and OH & S obligations.

Strategic Partnerships

EDSA Group is proud of the comprehensive range of in-house expertise. However, it is also recognised that meaningful partnerships are the foundation for success. Partnerships enable EDSA Group to make continuous improvements in all facets of service offerings.

Audio Visual

Design, integration, supply, installation, and maintenance of audio visual presentation technology solutions. Products include data projectors, interactive whiteboards, audio and video conferencing, specialised display systems, and video walls. Total integrated electrical and communications solution provider positioned to provide end-to-end services
